SKILLS

Mobile

Flutter, Dart, Android, iOS

Architecture

Clean Architecture, MVVM, DI, SOLID

DevOps & Tools

CI/CD, GitHub Actions, Codemagic, Firebase, REST, GraphQL

EDUCATION

B.Sc. in MIS

Ain Shams Academy
Cairo, Egypt

PROJECTS & OPEN SOURCE

Cached_pdfview Package

Flutter plugin adopted by **5,000+ developers**, with automated CI/CD and clean architecture.

Stickerawy (Android)

WhatsApp stickers app with **500k+ installs** on Google Play.

Ugigs Streams

Live streaming app with real-time chat, Agora.io video, and Stripe payments.

LANGUAGES

Arabic: Native English: Professional

SUMMARY

Lead Mobile Engineer with 7 years of experience, owning mobile architecture, delivery, and production stability for an EdTech platform serving **5M+ users**. Sole owner of the mobile product for **1.5M users** during a critical team transition. Strong foundation in **Flutter**, clean architecture, CI/CD, and open-source.

EXPERIENCE

Lead Mobile Engineer

Jul 2025 – Present

iStoria · Riyadh, Saudi Arabia (Hybrid)

- Lead a team of 4 mobile engineers, owning architecture decisions, delivery, and release management across iOS and Android.
- Reduced release cycle from 4 weeks to 1 week by introducing trunk-based development, feature flags, and automated CI/CD.
- Established scalable Flutter architecture patterns and engineering standards, improving team velocity and code maintainability.
- Drive cross-functional collaboration with Product, Design, and QA to deliver high-impact features on predictable timelines.
- Optimize app performance and production stability at scale, serving 5M+ users.

Senior Software Engineer

Jan 2022 – Jul 2025

iStoria · Riyadh, Saudi Arabia (Hybrid)

- Achieved a **99.9% crash-free rate** by identifying and resolving critical performance bottlenecks in production.
- Architected core mobile infrastructure: state management, caching, networking, and local storage layers.
- Owned CI/CD pipelines and app store release processes, ensuring consistent and reliable deployments.
- Adapted and customized third-party packages to meet product-specific requirements at scale.
- Maintained end-to-end system stability (mobile, backend, cloud) for **1.5M users** as the sole engineer during a critical team transition.

Mid-Sr. Mobile Engineer

Oct 2020 – Jan 2022

Happy Trip · Cairo, Egypt

- Led a Flutter team of 2 developers, managing task allocation and code reviews.
- Engineered a reusable networking layer with caching, queueing, and error handling, **reducing boilerplate code by 60%**.
- Built the core flight and hotel booking app alongside internal HR and POS tools.

Mobile Engineer (Part-time)

Feb 2021 – Oct 2021

Tech Bay Portal · UAE (Remote)

- Built real-time GPS tracking features for a ride-hailing app using Flutter and Socket.io.
- Collaborated with a distributed multinational team in an agile workflow.

Mobile Engineer

Aug 2019 – Sep 2020

FekraSoft Co · Cairo, Egypt

- Mentored engineers on advanced Flutter patterns: Streams, RxDart, and Dependency Injection.
- Developed an e-commerce app with integrated barcode scanning functionality.
- Enhanced PDF applications with file encryption and secure download features.
